In dis world of disillusion see destruction of mankind  
Yes dem wicked dem so greedy see dem even rob the  
blind  
Who will stop his madness who'll take control  
They've been running all the business even music lost  
It's soul  
And seem like every politician is molester of a child  
They keep teasing I&I wil they stop dis for a while  
Was it a consequence of ignorance, dis global state of  
Fear  
Dem a go never to repent, see the end is getting near

Dem rule in dis jungle  
See with my life they do the gamble  
Dem rule in dis jungle  
See with your life they do the gamble

They even put I inna lyrical gheto  
Too much opression it's a lyrical gheto  
They even put I inna lyrical gheto  
Where I man come from it's a lyrical gheto  
See dem a come but they never come listen at all

I just can't relax inside this concrete box  
Fussin' on the streets gaylers, hooligans and cops  
After dem a gathered comunist crooks  
All in one day like dem a dis satan troops  
And dem western politicians dem champions in crime  
Accusations to my nation, no exeption this time  
Who a start a fire who gets burned up in this time  
Accusations to my nation, no exeption this time

In the eyes I have a dubby creation  
This is my mike, my only operation  
Now I'm operating this combination  
Only eyes&girls; in a face man

I made my own decision through music of relligion  
Music is my vision and I never crosed my region
