This is the uptown two train, forty second street next
Watch the closing doors

There's a baby girl
That I know
And she's so fine
I meet her everyday
After school
Walk her to the train to spend some time
'Cause what her papa don't know
Won't hurt me
Mama thinks that
I'm a cutie
She can't date till her sweet sixteen
But we just tryna do out thang

So I meet her at the two train everyday
Riding all the way to hundred and tenth
I get to hold her hand
Whisper in her ear
The only time I get the time
Is on the two train
Is on the two train

We always meet in the back car
So no one else can interrupt
So much to talk about
So little time
I wish we didnt have to rush
'Cause by forty second to have a listen
Seventy second reminising
Ninety sixth street 'bout to start kissing
And I'm about to do my thang

So I meet her at the two train everyday
Riding all the way to hundred and tenth
I get to hold her hand
Whisper in her ear
The only time I get the time
Is on the two train
Is on the two train

I can't wait
'Till we dont have to worry 'bout what no one has to say
'Cause we'll be free
Won't have to sneak around no more
But we're here now
And the future's not so far away
So until that day I'll say

Meet her at the two train everyday
Riding all the way to hundred and tenth
I get to hold her hand
Whisper in her ear
The only time I get the time
Is on the two train
Is on the two train

So I meet her at the two train everyday
Riding all the way to hundred and tenth
I get to hold her hand
Whisper in her ear
The only time I get the time
Is on the two train
Is on the two train

Two train
This is the uptown two train, forty second street next
Is on the two train
