You're the baddest chick I've ever seen in my life
No, she don't think that I see her but man I see her
Standing behind the bar, sippin' shots of rum, gettin'
fools up in here twisted
I love her saddle body movements to the base line
Finest chick in the club, hands down, know what I mean
She ain't even bouncing, shakin' or poppin' it
Need to come around from the counter, let me see
what I'm working with
Cause I wanna get to know ya,
Girl, here's a tip, give me your number
Gotta know your situation

(Chorus x2)

Baby, whats your situation? I've been waiting
For a chick like you so tell me that you're available
Baby girl, whats your situation? Cause I'm tryna get it
poppin'
I wanna make you scream, have you in my backseat

Yeah, girl I'm lovin' every curve that's on ya
Won't you meet me back at the Range Rover
I ain't nevr felt this way before, hope you're down for
what I'm down for
Cause I ain't takin' off 'til I get the chance to let you
know
You're on my agenda, hopin' you ain't offended
Cause I'm tryna make it happen baby girl
We can get it poppin'
By the end of the night, I wanna know

Baby what's your situation?

(Chorus x2)

Baby, whats your situation? I've been waiting
For a chick like you so tell me that you're available
Baby girl, whats your situation? Cause I'm tryna get it
poppin'
I wanna make you scream, have you in my backseat

I know you got the bar to attend to
But there ain't too many opportunities where we can

get just like this
To get it, I'll give it to you, you gon' serve it up just right
Yeah, so tell me what you're waiting for
Forget it, I mean, I'll just meet you 'round the back in 10
minutes girl
So just relax, let me cater to ya
(I'm telling you right now, there ain't no other nigga in
here like me)

(Chorus x2)

Baby, whats your situation? I've been waiting
For a chick like you so tell me that you're available
Baby girl, whats your situation? Cause I'm tryna get it
poppin'
I wanna make you scream, have you in my backseat
(You're the baddest chick I've ever seen in my life, so
tell me you're available)
