The girls so bad, you'd be like how
Finer than my ex and the girl I've got now
5 foot frame, shorty keeps it tight
And if you wit' your girl, best be lookin' for a fight

'Cuz a brotha's gonna stop and stare
Reprecautions mean you won't care
And one look is never enough
She be walkin' and be talkin' with so much love

Man, I'm tellin' you
If you think she's bad then look at her crew
Tell me what's a brotha to do
Sophisticated and she's gangsta too

That chick with da braids in the escalade
Oh, hunnie lookin' warm with the chocolate skin
But I heard she was trifflin'

Girls got the braids, sportin' DK shades
Oh, hunnie lookin' warm with the caramel skin
But I heard they were trifflin'

Her man's locked down so brotha's got room
Said he ain't comin' home no time soon
I checked her hand, I didn't see no ring
I asked about her and I heard some thangs

I can't let her get away
Hunnies around my way, never nothin' good to say
Hate the attention all the fellas pay

That chick with da braids in the escalade
Oh, hunnie lookin' warm with the chocolate skin
But I heard she was trifflin'

A girls got the braids, sportin' DK shades
Oh, hunnie lookin' warm with the caramel skin
But I heard they were trifflin'

That chick with da braids in the escalade
Oh, she be lookin' warm with the chocolate skin

But I heard she was trifflin'

A girls got the braids and the DK shades
Oh, they be lookin' warm, just the two of them
But I heard they were trifflin'

She's the banginest chick I've ever known
How could some one so beautiful be so trifflin'
It must be rumors and they must be lies
Must be lies 'cuz all the girls can't stand her
But they can't say why

That chick with da braids in the escalade
Oh, she lookin' warm with the chocolate skin
But I heard she was trifflin'

A girls got the braids, DK shades, yeah
Oh, hunnie lookin' warm with the caramel skin
But I heard they were trifflin'

That chick with da braids in the escalade
Oh, hunnie lookin' warm with the chocolate skin
But I heard she was trifflin'

Girls got the braids, DK shades
