Audition's over
Cause I finally found you boy
You're the perfect one to keep my heart
And you have me from the first moment
I knew that you were a star
Now i want you to be my only one

And now that the rehearsal's over
I can't wait to show the world
Why me and you could be together
You're the best I've ever had in the world

It's the show of my life
And you are
My greatest performer
We've already set the stage
Now we can entertain, oh
My greatest performer
Greatest performer
My greatest performer

My leading lady I've been searching for
It came and showed me everything
That I've never had before
You're like the sun that shines
And now that you are a mile above the rest
And baby to have you i feel blessed
So baby let's get away
Baby with you I wanna stay

And now that the rehearsal's over
I can't wait to show the world
Why me and you could be together
You're the best I've ever had in the world

It's the show of my life
And you are
My greatest performer
We've already set the stage
Now we can entertain, oh
My greatest performer

Greatest performer
My greatest performer

Don't you feel it baby

The show ain't over
We'll give it an encore
I'll bet that we'll get a standing ovation

It's the show of my life

It's the show of my life
And you are
My greatest performer
We've already set the stage
Now we can entertain, oh
My greatest performer
Greatest performer
My greatest performer
