Ohh, oh

How is it  
That when we go out  
All together  
As one big crew  
I tried  
To chill with you  
Dance or whatever  
And your homegirls  
More interested  
Than you  
She pays  
More attention to me  
Than you lately  
I'm tempted  
To pay attention to

[Chorus:]  
If you let her  
Take me from you  
I guess I finally see  
If you let her  
Take me from you  
You never wanted me  
Let this happen  
And it proves  
That your love  
Was never true  
If you let her  
Take me from you

She's always laughing  
And flirting with me  
And you act like you  
Don't even care  
As a matter of fact  
You've been real  
Distant lately  
Acting like  
I'm not even there  
She says

That you don't deserve  
A man like me  
I'm starting to think  
That she's right

(Chorus)

Baby when you were lost  
Had no one who was there  
Giving  
All my affection, girl  
So u know that I cared  
If uncool you love girl  
Then you should be scared  
Cause another girls  
About to take your place  
But if you let her

[Chorus x2]

Take me from you  
Oooh, girl  
Take me from you  
Oooh, yeah (3x)
