Checking in this room
Standing next to you
What we bout to do
We both are in the mood
Your dude is at home
My girl's calling my phone
'Cuz I'll forget you when I realize
She's the one for me
She's the one I like
So babe just for tonight
We can pretend
I ain't got nowhere to go
You ain't got nowhere to be
So let's just say we'll leave

In the morning
You go to him
I'll go to her
But in the nighttime
Let's stay together baby
In the morning
I'll go to her
You go to him
But just for right now
Let's play with love
In the morning

Verse 2
I'll disobey with you
So I can play with you
Once I get it going
Don't you tell me to stop girl
I won't, you don't have the reason
Such the fact that it's feeling good girl
She ain't the one for me
She's the one I like
So maybe just for tonight
We can pretend
I ain't got nowhere to go
You ain't got nowhere to be
So let's just say we'll leave

Ã¢??Cuz In the morning
IÃ¢??ll go to her
You go to him
But in the nighttime
LetÃ¢??s stay together baby
In the morning
You go to him
IÃ¢??ll go to her
But just for right now
LetÃ¢??s play with love
