Concerts all the time, your face in the pillow
Thinks moving kinda fast, I think I need to pull out
Baby you should just stop right there, just right there
Pressure not fair,
I feel it coming, and I know you know, you know, you
got that
Killa, killa, killa, killa, killa,
You got that killa, killa, killa, killa, killa,
And it's unbelievable, (and it's unbelievable) the way
your body is calling for me
For me, girl you got, girl you got

Last round didn't count, I, I could still get up
Know you thought I wouldn't last,
I need it now, I'm feeling like it's a drug
Baby you should just stop right there, just right there
Pressure not fair,
I feel it coming, and I know you know, you know, you
got that
Killa, killa, killa, killa, killa,
You got that killa, killa, killa, killa, killa,
(Need it)
And it's unbelievable, it's unbelievable the way your
body is calling for me
For me, and no, and no, and no
For me, for me, yeah
