Baby, I don't where you are  
But I gotta tell you, how special I think you are  
I don't care the situation with the one you may be  
Pick up the phone, I'll introduce you to a better life  
That's right

If you ever wonder of the way I treat you baby  
There is only way love would let me treat you lady  
I'm not trying to stress you girl, there's a love that's in  
your world  
Just wanna be the one to take you over

Hey there lady, I want to talk to you  
Come here baby, I wanna get next to you  
Over again, I, I, I, I, I wanna be more than friends

I'll be your sexual healer  
your protector, your man  
So intellectual it's more than  
just a sexual feeling

Don't you get it  
There's no one that's gonna do you more better than  
me

If you ever wondered of the way I treat you baby  
There is only way love would let me treat you lady  
I'm not trying to stress you girl  
there's a love that's in your world  
Just wanna be the one to take you over

Hey there lady, I want to talk to you  
Come here baby, I wanna get next to you  
Over again, I, I, I, I, I wanna be more than friends

Hey there lady, I want to talk to you  
Come here baby, I wanna get next to you  
Over again, I, I, I, I, I wanna be more than friends
