Show me some love  
Come give me kisses, girl  
Come give me hugs  
I'll light it up  
When the lights go out  
Since sparks that 4th of July  
Let's light it up, girl, you and I  
Make fireworks all through the night girl  
Why you called?  
You wanna get it?  
Then let's get involved  
Girl, you plus me equals problem solved  
I could speak that language of body  
Tu eres loco, papy  
If you want crazy girl, then you got it

Let's fool around the sheets  
And get high up in the sun  
We'll be both sweating  
Call it baby all your loving  
You can smell it in the air  
Like you sprayed your favourite fragrance  
Put me in a bottle  
Call it "Oh, You are my trust"

Girl, before I leave  
Oh yeah  
I'm gonna make sure you smell just like me  
Mark my, mark my, mark my, mark my territory

Before I leave  
I'm gonna make sure you smell just like me  
Mark my, mark my, mark my, mark my territory

When I'm gone  
You're holding my pillows I was on  
You're talking to me on my way home  
Then you tell me you miss me  
And you call me a genie  
Cause I granted all your wishes  
Girl you know  
Can't nobody do it the way I do it

When I'm into it, you get into it  
I know you're waiting for the same  
There are no other  
And I can have it anytime I want it

Let's fool around the sheets  
And get high up in the sun  
We'll be both sweating  
Call it baby all your loving  
You can smell it in the air  
Like you sprayed your favourite fragrance  
Put me in a bottle  
Call it "Oh, You are my trust"

Girl, before I leave (before I leave)  
I'm gonna make sure you smell just like me  
Mark my, mark my, mark my, mark my territory

Before I leave  
I'm gonna make sure you smell just like me  
Mark my, mark my, mark my, mark my territory

Girl I just wanna lay you down  
You can let that body for a second  
For a negligee drop, don't you?  
Till your body's screaming from that pleasure  
When I hit that spot  
Baby, I just wanna lay with you forever  
In-between these sheets  
And my own friends gonna know who you've been  
loving  
Cause you smell just like me, baby

Girl, before I leave  
I'm gonna make sure you smell just like me  
Mark my, mark my, mark my, mark my territory  
Before I leave  
I'm gonna make sure you smell just like me  
Mark my, mark my, mark my, mark my territory
