Let, let me keep you there,  
Break, break your...  
Watch you move the floor!

I know you're getting planned to do this  
But look were we are!  
You can pass off as a virgin tonight,  
Wanna taste you like a pot of the oven  
Number one... kiss your lips...  
Never felt what you're about to feel!  
Make a part of you, a piece of me tonight  
Still have you again in the morning  
Call your job, tell your boss, that the boss is here!  
I've been patient, you've been waiting for this day to  
come,  
To set you free from wonder,  
I want you to enjoy this!

Chorus:  
Everything we do... hands on,  
Really don't wanna take my hands off,  
Looking at your keys on a table,  
... but you can't come!  
Got your head in the pillow  
Pretty girl, about to go deeper,  
Keep it up, keep it up, pulling your head down,  
I can see you almost...  
You can let it go, don't you feel the shame  
All the signals tell me that you never came!  
Cause your overflow, you're overflow, you're overflow!

Looking over you, I'll wait,  
No complains girl, I'm...  
... nigger wouldn't do for you,  
But now you know isn't right!  
No need to question us, I say it's cocky cause  
Your body... you know I hit your spot!  
... had enough  
Oh, just out it in, put it in, and again, and again!  
This is your moment, but I...  
I really... that's the reason why

Chorus:

Everything we do... hands on,  
Really don't wanna take my hands off,  
Looking at your keys on a table,  
... leave, but you can't come!  
Got your head in the pillow  
Pretty girl, about to go deeper,  
Keep it up, keep it up, pulling on your head down,  
I can see you almost...  
You can let it go, don't you feel the shame?  
All the signals tell me that you never came!  
Cause your overflow, you're overflow, you're overflow!

So if I wanna... 'till I can...  
Girl, you pull me in, oh, oh baby!  
The test of your skin makes...  
My hand under the sheets,  
Oh shit, look... you did it again!

Chorus:

Everything we do... hands on,  
Really don't wanna take my hands off,  
Looking at your keys on a table,  
... leave, but you can't come!  
Got your head in the pillow  
Pretty girl, about to go deeper,  
Keep it up, keep it up, pulling on your head down,  
I can see you almost...  
You can let it go, don't you feel the shame?  
All the signals tell me that you never came!  
Cause your overflow, you're overflow, you're overflow!  
Oh baby, like a virgin...
