The world's spinning round I think your love's not
knead down
So addicted to your taste, see it here, â€¦ here
Take these keys from me please, I want more, yes
indeed
This could be start of something really bad for me
Time will tell the effects you have on me
Your aroma hit my nose, another shot there I go
Pull you closer to my lips, you know I just can't resist
Turn my lonesome to a high, got my head up in the sky
You put me where I need to be, look what you're doing
to me, girl
It's like me it's liquor, you're the box cider (?)
You keep giving me shot after shot, you're making me
hot you're so hot

You're making me love drunk, you're making me love
drunk X 2
I'm getting drunk of your love

Now I know my limits but I'm just so caught in the
trauma
High on my emotions girl you got me so open
You're so sweet I should have know that you would
sneak up on me
Touch me here, touch me there, when I touch you back
you'll be scared
Those are the ones you can't compare one hundred
proof you're not fair
It's getting so hot in here I think I need some fresh air
Sweating more through my â€¦ you take me out of my
clothes
You drive me so worked up, I just can't get enough of
your love

It's like me it's liquor, you're the box cider (?)
You keep giving me shot after shot, you're making me
hot you're so hot
You're making me love drunk, you're making me love
drunk X 2
I'm getting drunk of your love

It's like me it's liquor, you're the box cider (?)
You keep giving me shot after shot, you're making me
hot you're so hot
You're making me love drunk, you're making me love
drunk X 2
I'm getting drunk of your love

I never met nobody like you, baby girl you got â€¦
â€¦ then you let it slow, got me love drunk, you're the
only one
Love drunk, love drunk X 3
I'm getting drunk of your love
You got me baby.
