When I first saw her, I was attracted to her swagger,
style, how she acted. So beautiful and so bad (bad). So
crucial in bed. Oops I forgot to mention I cheated on my
girl. Thought the grass was greener on the other side,
so I left one for the other, and this time we know I
discovered shes...

She ain't like my old girl. I thought I needed something
new. Shame on me (me). And now I couldn't get her
back if I wanted to. That's what I deserve. Cause now
I'm wishin she was her. She was her...

She ain't like my old girl. I thought I needed something
new.

Shame on me (me). And now I couldn't get her back if I
wanted to.

That's what I deserve. Cause now I'm wishin she was
her. She was her...

All my players, all my homies, all my hustlers, that
wanna be pimps, all my gangsters, all my thugs, listen
to this and don't do what I did.

Don't leave your girl, for another girl, you'll wish she
was her (x4)

All my players, all my homies, all my hustlers, that
wanna be pimps, all my gangsters, all my thugs, listen
to this and don't do what I did.
