[Intro]

Ohhh Yes

Ohh Yes

[Verse 1]

You can be the girl with nothing bad to hide,

But that don't mean a thing.

It just means that you haven't lived.

And you can be the man who says he'll never lie,

But love can make you change,

And make you feel what you never thought you'd feel.

[Bridge]

And that's the truth.

I know you think you're sick,

But wait 'till it creeps through, on you, you (yeah).

And you're trapped inside,

Of something that is wrong,

But it's too late to find your way back to what's right.

[Chorus]

The things that you (the things that you),

You do for love (you do for love),

Will drive you crazy, you can't take it.

It makes you wanna hate.

The things that you (the things that you),

You do for love (you do for love).

Just forget it, it's vicious.

And you'll be trippin' on the things you do.

[Verse 2]

You can be the kind of dude who says he's true,

But don't you fool yourself.

There's someone who can break you down.

You can be the girl who says she'll never cheat,

But don't you place that bet.

No no no.

[Bridge]

And that's the truth.

I know you think you're sick,

But wait 'till it creeps up, on you (you, yeah).

And you're trapped inside,

Of something that is wrong,

But it's too late to find the way to what's right.

[Chorus]

The things that you (the things that you),
You do for love (you do for love),
Will drive you crazy, you can't take it.
It makes you wanna hate.
The things that you (the things that you),
You do for love (you do for love).
Just forget it, it's vicious.
And you'll be trippin' on the things you do.
[Verse 3]
So bad.
You never thought you'd be with someone else's man.
Oh, but it makes you feel good (but it makes you feel
good).
Yes of course,
You really love her,
But real talk man she ain't yours.
But you don't care anymore.

[Chorus]
The things that you (the things that you),
You do for love (you do for love),
(It) Will drive you crazy, you can't take it.
It makes you wanna hate (makes you wanna hate).
The things that you (the things that you),
You do for love (you do for love).
Just forget it (forget it), it's vicious (it's vicious).
And you'll be trippin' on the things you do.

[Outro]
The things you do, yeah yeah.
Look at the things you do.
I said you'll be trippin on the things you do.
