Tomb stone, reason our love was here
Left alone, there's nothing but our fears
Travel alone, it ain't anything better than you
I, what do I do?
Falling off every bridge I cross I be â€¦
Turn that machine off I felt again
Tryina bring ya back to me
Baby, please just stay
I know you're alive just fading
I'm asking you try girl, please
I know we'll survive this
You could just forgive

Baby we could live
I know you're alive just please
I'm asking you try, girl
How my world survive this?
You could just forgive
Baby we could live
I know that I'm the one that took all of your â€¦
When I left you standing there like that
Never thought you would be gone, girl
It's not fair, I wait for you to come back
Falling off every bridge I cross
