Home Remedy

It's a home remedy when you put your arms around me
I know the working day is through
You're the right recipe never failing to astound me
Time proven tried and true

Passion flowers, love in bloom
Solar power lighting up the room
You're a soulful feeling, and my natural high
A touch of healing in the night, feels so right

You brought your laughter, I gave my trust
You showed me patience and a healthy dose of lust
Can't advertise it, can't box it up
But I have tried it and I'll never get enough of the
Things we say without a sound
The way you turn my world around

It's a home remedy when you put your arms around me
This old world is shining new
Such a sweet mystery, never failing to astound me
Time proven tried and true
Like a home remedy, oh baby put your arms around me
Sweet myster, time proven tried and true
Like a home remedy, you're my home remedy
Tried and true, like a home remedy
