Mine is the car, look pass the dress  
Beyond the pearls, who will protest?  
Choke on the stars, shadows evoke  
no resume no diamond lane.

All you win and all you pray  
Who could make you feel afraid?  
Be what you say, make you mistakes  
Hey silver and gold, you feed cumble and  
Forever be yours, counting the hours  
The saulting the... and the world resouwers  
The world resowers, the world resowers  
The...

All you will and all you bring, you...  
Who could make you feel afraid?  
The world.  
Will you give more you'll get more than you take ohh  
Will you show us, what yopu  
Show us what you fade.

Cry and move on  
Cry and move on  
Cry and move on  
Cry and move on  
Outside in the air.

What you're hiding for?  
You could be fighting come on!  
What you're hiding from?  
You could be hiding come on!  
What you're hiding from?  
You could be fighting come on!  
What you're hiding from  
You could be fighting come on!

What you're hiding from  
You could be fighting come on!
