Earthbound my heart was earthbound  
Till I looked into your eyes  
I found my heart was earthbound  
Till you took it to the skies

I felt your arms around me  
And I was safe and warm in your embrace  
Suddenly the chains that bound me  
Were gone and I was soaring into space  
I thought happiness missed me  
But you changed my world around  
Earthbound until you first kissed me  
And then in your arms I became heaven bound

Musical interlude

I thought happiness missed me  
But you changed my world around  
Earthbound until you first kissed me  
And then in your arms I became heaven bound
