Earthbound my heart was earthbound
Till I looked into your eyes
I found my heart was earthbound
Till you took it to the skies

I felt your arms around me
And I was safe and warm in your embrace
Suddenly the chains that bound me
Were gone and I was soaring into space
I thought happiness missed me
But you changed my world around
Earthbound until you first kissed me
And then in your arms I became heaven bound

Musical interlude

I thought happiness missed me
But you changed my world around
Earthbound until you first kissed me
And then in your arms I became heaven bound
