Yea yea yea

We supposed to be

What if I didn't wake up around 9
And what if I didn't make it to work on time
And what if Craig and them didn't need a ride
Then I wouldn't have found out what's going on tonight
What if you didn't catch a man on 3
You'd probably be here with them instead of me
So lets take it advantage of what is right in front of us
Girl it's clear to me that you know

[chorus:]

We supposed to be don't think it just happened
We supposed to be girl what we got is cracking
And we supposed to do a bunch of sneaking hanging
on the weekend
We supposed to be (yea)
Write your name down on this paper
Promise that a player gon hit you later
Girl you know we be on the phone with each other
Keeping it from your mother
We supposed to be (supposed to be)

What if my momma worked the grave yard shift
And what if I had to stay home and baby sit
What if I didn't get up the nerve to ask your name
I don't think this night would end the same
But here we are alone and everyone else is here is
gone
And everything that's happened can't be wrong
Never saw
Girl it's crazy how we found each other baby
And now it's clear that we

[chorus:]

We supposed to be don't think it just happened (just
happened)
We supposed to be girl what we got is cracking (its
