Have you ever love someone  
and your lost now that there gone  
in the middle of the pain  
you do your best to move on  
you think about it day and night  
and try and pass things up  
and once you get em back  
its not exactly how it was

how do i  
turn it around no longer feel the same  
or should i  
just pretend nothings wrong and play this game  
oh i do  
remember how it was and what we had  
i think about  
why we let it go before it hurts so bad

there were to much time  
that we spent apart  
being away from you  
it changed my heart  
i do remember  
how i once felt  
but i must confess  
that outta love i fell

nothings making any sense one minute your in love  
when i saw myself without you i felt like giving up  
couldnt imagine life without a love that was so strong  
i think it had a lot to do that you were gone for so long

how do i  
turn it around no longer feel the same  
or should i  
just pretend nothings wrong and play this game  
oh i do  
remember how it was and what we had  
i think about

why we let it go before it hurts so bad

there were to much time (ooo)  
that we spent apart  
being away from you  
it changed my heart  
i do remember (i do remmeber)  
how i once felt  
but i must confess (that i must confess)  
that outta love i fell

there were to much time (ooo)  
that we spent apart  
being away from you (being away)  
it changed my heart  
i do remember (i do rmemeber)  
how i once felt  
but i must confess (but i must confess)  
that outta love i fell (ooo)(ooo)

wish i could press rewind  
oh i took our love for granted  
time went by  
oh i want it so much  
to get you back  
now that memory is all we have

(ahhhoo)  
(oooo)  
(ohhh)

there were to much time  
that we spent apart (ooo)  
being away from you  
it changed my heart (heart)  
i do remember  
how i once felt (felt)  
but i must confess (ooo)  
that outta love i fell (ooo)
