and  
i've always prayed that when you come see me you'll  
be staying awhile

(Bridge)

i need to feel you but i cant touch you, your so many  
miles away, the rain is pooring im caught in a storm  
and i can't leave you for one more day no.

(chorus)

i wanna touch you but your so far, can't be where you  
are but i can feel you, promise to never leave you no  
more your what i live for just to be near you
