My sweet lady  
I don't wanna be alone tonight, baby

Sitting alone, looking out my window  
Wondering how could I ever make it  
Without you here, I find myself drying tears  
I wish I could have you here  
I don't wanna be without you, baby

'Cause girl, you know  
That you should have never ever left me alone, no  
I'm a man and I want my woman home, yes, I do  
Now I'm all alone and that's never the way I need to be  
Said we should be spending more time together  
All I wanna know is

How can I make it through the night  
When I'm all alone, my baby?  
When I need your love right here by my side  
How can I make it through the night  
When I'm all alone, my honey?  
Won't you please stay with me tonight?

I like to run my hands right through your hair  
And show you how much I care, my sweet lady  
And when you are here there's no need for me to fear  
Baby, I'm so sincere, I don't wanna be without you,  
baby

'Cause girl, you know  
That you should have never ever left me alone, no  
Now I'm a man and I want my woman home, baby  
Now I'm all alone and that's never the way I need to be  
And we should be spending more time together  
All I wanna know is

How can I make it through the night  
When I'm all alone, my baby?  
When I need your love right here by my side  
How can I make it through the night  
When I'm all alone, my honey?  
Won't you please stay with me tonight?

How can I make it through the night  
When I'm all alone, my baby?  
When I need your love right here by my side  
How can I make it through the night  
When I'm all alone, my honey?  
Won't you please stay with me tonight?

'Cause girl, you know  
That you should have never ever left me alone, no  
I'm a man and I want my woman home, baby  
Now I'm all alone and that's never the way I need to be  
And we should be spending more time together  
All I wanna know is

How can I make it through the night  
When I'm all alone, my baby?  
When I need your love right here by my side  
How can I make it through the night  
When I'm all alone, my honey?  
Won't you please stay with me tonight?
