[Verse 1:]

I'm so lost I can't escape, Cause someone totally stole
my faith
I've tried but the feeling is gone (gone x2)
Everyone can use some space
But it's not that time of place to break down (down)
I said break down (down x2)

[Chorus:]

What can I do to release this pain
What can I say to make it okay
Where can I go to get away
What can I do, what can I do
What Can I Do

[Verse 2:]

Still I sing the same old song
Why can't we all just get along
If it's not the same
Everyone can use a change
But give me just one more day to break down
And leave it alone

[Chorus:]

What can I do to release this pain
What can I say to make it okay
Where can I go to get away
What can I do, What can I do (better)
I don't know who to turn to
Tell me what can I say girl
I just want to know what I can do

What Can I do to release this pain
What can I say to make it okay
Where can I go to get away
What can I do, what can I do
What can I do

What can I do, what can I do
(Can you hear me I said can you hear me, It's been long
enough woah)

(Listen can you hear me)
What can I do better
I don't know who to turn to
I just want to know what I can do
Everyone can use some space
But It's not that time of place to break down (down)
I said break down
