Oh baby oh yeah
Mmm yeah sweet lady
Oh baby baby
Mmm oh baby baby baby baby

Little tired I can't sleep
What's wrong with me?
Still all in denial
And you've been gone for weeks

Now I know what
I should've known right from the beginning
My heart was blind
And now I'm man enough to admit it baby

I don't wanna go another day
Bein' without your love
(No I don't baby)
I've been listenin' to my heart
And now it's speakin' bout love
(Tell me why baby)

Tell my why do you ever have to leave
And take your love away?
(You didn't have to do it baby)
Now I realize you were the best for me
Just a little too late baby

I shoulda trusted my instinct
What's wrong with me?
I thought I learned all my lessons
But I didn't learnt a thing

You once said that
You couldn't take me where you was headed
I cried inside
And now I'm man enough to admit it baby

I don't wanna go another day
Bein' without your love
(No I don't baby)
I've been listenin' to my heart

And now it's speakin' 'bout love
(My heart is beating so hard baby)

Tell my why do you ever have to leave
And take your love away?
(Restrain your guard on the lover)
Now I realize you were the best for me
Just a little too late baby yeah ohh yeah

Miss you like a nigga should
Miss you like a nigga should baby, yeah
And I miss you like a nigga should
Miss you like a nigga should lady, yeah
I miss you like a nigga should
Miss you like a nigga should, babe ohh ohh
And I miss you babe, miss you babe

I don't wanna go another day
Bein' without your love
(No I don't baby)
I've been listenin' to my heart
And now it's speakin' 'bout love
(My heart is beating so hard, baby)

Tell my why do ever have to leave
And take your love away?
(Restrain your guard on the lover)
Now I realize you were the best for me
Just a little too late, baby
