Some may say  
That's it's the only way  
And I can honestly say  
The Only Way

I've done it another way  
I sat here yesterday  
And it was the same as the day before  
And I'll probably do it again

Don't give yourself away, away  
It's the only way  
It's the only way  
It's the only way

And even though statistics say  
There is only one way  
I'll be there tomorrow  
Soon you walk down  
Into the m-shelf  
I hope you really like me

Don't give yourself away, away  
It's the only way  
It's the only way  
It's the only way  
Away, away

Don't give yourself away, away  
It's the only way  
It's the only way  
It's the only way  
Oh, Oh it's the only way
