It was just one of thoes things
Just one of thoes crazy fling
One of thoes bells that now and then rings
Just one of thoes things
It was just one of thoes nights
Just one of thoes fabulous flights
A trip to the moon on gossamer wings
Just one of thoes things
If we had thought a bit
Of the end of it when we started painting the town
We'd had been aware that our love affair
Was too hot not too cool down
So goodbye dear and amen
Heres hoping we meet now and then
It was great fun, but it was just one of thoes things
