So you'd like to save the world

-----

So you'd like to save the world

I suggest you take one person at a time

And start with me

Not an ordinary girl

Not someone that I should rear upon

And ask hey what you sign baby

Have you been reading my mind

Nothing more or less to rest will

Could I keep you in mind

Did you really cry

Then you saw the hole in the sky

Did you really hold your head

And hide your eyes

That's alright

You might call it ultraviolet radiation

It's only sunlight

So you'd like to save my world

If you could free my inner child

And I could free your inambition baby

Or would you like to mother me

I love the way you wear that motorola generation cheek

mama

So you'd like to save the world

I'd really like to help you

I'd really like to be you for a while

Is that alright

And I could call it ultraviolet radiation

It's only sunlight

Don't you know

It's only sunlight

It's only sunlight

But you might call it ultraviolet radiation

/(C) Lloyd Cole 1993
