Always knew you'd find another
And my way of life I'd have to rearrange
Thought I'd give up when you were ready
Now I find it very hard to make the change

It's all over now I'll make the change somehow
I'll get over you what else is there to do
Though I'm not ready yet I know I must forget
I'll make the change somehow though I'm not ready
now

[piano]

I'm surprised I thought I'd make it
I've been training for this day a long long time
Now I find that I'm not ready
To accept the fact that you're no longer mine

It's all over now...
