Always knew you'd find another  
And my way of life I'd have to rearrange  
Thought I'd give up when you were ready  
Now I find it very hard to make the change

It's all over now I'll make the change somehow  
I'll get over you what else is there to do  
Though I'm not ready yet I know I must forget  
I'll make the change somehow though I'm not ready  
now

[ piano ]

I'm surprised I thought I'd make it  
I've been training for this day a long long time  
Now I find that I'm not ready  
To accept the fact that you're no longer mine

It's all over now...
