Only you can make me cry make me sigh make me
blue
Only you can hurt me dear cause I'm so in love with you

When I was just a little girl I used to fall and hurt my
knee
And anytime I misbehave my mother always scolded
me
No matter how it hurt me nothing could make me cry
Not until today when you said goodbye

Oh darling only you can make me cry...

When I was old enough for boys I fell in love with one or
two
If I found out at anytime the boy I trusted wasn't true
No matter how it hurt me nothing could make me cry
Not until today when you said goodbye

Oh darling only you can make me cry...
