Enquanto isso  
anoitece em certas regiões  
E se pudéssemos  
ter a velocidade para ver tudo  
assistiríamos tudo  
A madrugada perto  
da noite escurecendo  
ao lado do entardecer  
a tarde inteira  
logo após o almoço  
O meio-dia acontecendo em pleno sol  
seguido da manhã que correu  
desde muito cedo  
e que se viram  
os que levantaram para trabalhar  
no alvorecer que foi surgindo

Meanwhile  
Meanwhile night falls  
into regions  
and if we could just see faster  
we could watch everything  
Dawn is next to night  
and getting darker  
and all the afternoons  
are falling, falling  
and then just after lunch  
Noon rose into full sunlight  
And then another morning  
running early  
seen only by those who rose  
in time to work.  
In the dawn that was the rising.  
In the dawn that was the rising
