Some people seem to think that they're untouchable,  
unbreakable  
That shit that happens never happen to them  
Well, I can think of one million different bad scenarios  
I'm always worried sick about, oh my friend  
So I ask you from my heart I ask you so sincerely

Ref.

To please don't walk on red  
Please don't go fast in cars on busy highways  
Don't die before I'm dead  
Try very, very hard to stay until the end of this, oh oh

Well maybe it is just that I've seen the? once and many  
times  
That falling out of this world is so easy  
So watch your step and watch your back  
Be careful, and remember that you're not allowed to  
leave me  
No you're not allowed to go I love you much to deeply

Ref.

So please don't walk on red  
Please don't go fast in cars on busy highways  
Don't die before I'm dead  
Try very very hard to stay until the end of this, oh oh

It saddens me, so endlessly  
Baby, this life is not for everyone to have or to keep, oh  
no no no

Ref.

So, so, so please don't walk on red  
Please don't go fast in cars on busy highways  
Don't die before I'm dead  
Try very very hard to stay until the end of this, oh oh
