strange to see you babe, ain't nothing down here free  
did you lose your ticket, hope you weren't looking for  
me  
now i'm still wearing the scars i got from being your  
fool  
you messed me up pretty good babe i didn't mean to  
rule you  
remember when i first saw you babe you were looking  
pretty good  
said you were looking for love, well then why didn't you  
you just sat there taking everything you could get  
never thought one day you might have to pay for it  
well did you ever dream baby one day you might fall  
and feel your back against the wall  
well did you ever dream baby one day you might crawl  
did you ever dream  
now when you're putting on your face i guess that you  
feel kinda low  
knowing that you passed your best and you got nothing  
to show  
well baby you know just as well as i some fool is gonna  
fall your way  
only this time around you might have to pay for it  
well did you ever dream baby one day you might fall  
and feel your back against the wall  
well did you ever dream baby one day you might crawl  
that's what i said  
did you ever dream, baby  
when you had no need, baby  
did you ever dream  
that you might have to pay for it  
i do believe that you might have to pay now  
well did you ever dream baby one day you might fall  
yeah and feel your back against the wall  
well did you ever dream baby one day you might crawl  
(improvise)  
strange to see you baby  
mmm strange, very strange  
'cause you messed me up good  
yes you messed me up  
messed me up pretty good now didn't you baby  
mmm, took me a long time, to get back here

but i swear i didn't mean to rule you  
yeah i swear i didn't mean to rule you  
how do you mend what you didn't mean to do  
'cause i swear i didn't mean it  
i swear i didn't mean it  
and i swear i didn't, swear i didn't mean to  
swear i didn't mean to rule you  
i swear, but you messed me up  
you know that you messed me up good, do you now  
you messed me up good, yes you did  
yes you did now now, baby  
'cause i'm looking at you now  
and you're paying now, yes you are now  
i swear, and you never dreamed that  
and you never dreamed that  
no you never dreamed that  
but you're paying now  
mmm you never dreamed that  
mmm i'm looking right at you now  
and you're paying now, yes you are
