And so it's all the same,
Goodbye, with a flicker I'm of again
A kiss that doesn't want to end
Oh it's all, all the same
I saying my I love you's
And the sadest voice
Saying my I love you's
I don't wanna go

I miss you, I miss you, I miss you
Oh I miss you
New York's so much colder than I thought
And I miss you miss you

Trains, boats and planes
The same people, different names
New songs the same refrain

I miss you I miss you I miss you
Oh I miss you, how I miss you
New York's so much colder than I thought
And I miss you, Miss you

I miss the way the corner of your mouth looks when you
smile
I miss the way that only you can hold me through the
night
I dedicate my songs to you then I miss you even more
I miss you, oh I miss you, oh I miss you I'm coming
home
Coming home, coming home

New York's so much colder than I thought and I'm
coming home

Aaaaaa
