And so it's all the same,
goodbye ,with a flicker i'm of again
a kiss that doesnt want to end
oh it's all, all the same
I saying my I love you's
and the saidest voice
Saying my I love you's
I don't wanna go

I miss you, I miss you, I miss you
Oh I miss you new yorks so much colder than i thought
and I miss you miss you

trains ,boats and planes
the same people , different names
new songs the same refrain

I miss you I miss you I miss you
oh I miss you how I miss you
New york so much colder than i Thought
And I miss you , Miss you

I miss the way the corner of your mouth looks when you
smile
I miss the way that only you can hold me trough the
night
I dedicate my songs to you then I miss you even more
I miss you oh I miss you Oh I miss you I'm coming home
coming home coming home

New yorks so much colder than i thought and I'm
coming home
