I can hear the morning paper
Falling in the hallway
I can hear the birds start singing summer blues
Another sleepless night's gone by and
Another day is dawning
Nothing will be different, nothing's new
Oh you never failed to catch me
You were always by my side

But you can't help me now
You could try but you would not know how
I'd be flying out of here
If I knew where wings get air
I don't think you can help me now

I know I need to be moving
I know I need to start with something
Give the world a smile, at least pretend
But when the champagne leaves your body
There is just too much to cry for
And the lingering question of where the good days
went

It would be mean to keep you waiting
To have you watching by my side
'Cause you can't help me now
You could try but you would not know how
Broken beyond repair
Broken and I just don't care
Broken and you can't help me now

Come all you screaming seagulls
Ravens and doves and black crows
Come on now robins don't just sit and wait

Come all you high pitched blackbirds
Give me your sweetest laughter
Come on now mickingbirds and nightinggales
Bring it on
Show me what you got show me your way

Oh you never failed to catch me

You were always by my side
Not even you can help me now
You could try but you would not know how
I'd be flying out of here
If I knew where wings get air
I don't think you can help me now

No not even you can help me now
Not even you would not know how
I'd be flying out of here
If I knew where wings get air
I don't think you can help me now

You can't help
Me now
No
Help me now
Me now
No
