"Fuel"

The fuel to write
To burn, to stay alive
To stand and wait
It takes fuel to light the tiniest star, and fuel to start a
fire

The fuel to win
To dare to keep the rhythm
The courage to trust
It takes fuel to take the leap, to keep the pace, to start
the engines

I get it from you
I get it from you

It takes fuel to walk the line, to put one foot in front of
the other
It takes fuel to turn the wheels, to keep the grace to still
discover

I get it from you
I get it from you
I get it from you
