#### **"Is It Love"**

Listen I don't think I got this right  
I though we just had the time of our lives  
One word from her and your back in her arms

Listen you thrill me so easily  
I'm diseased, stumbling swept off of my feet  
One word from her and your back in her arms  
But is it love ? Oh is it love?

Look at all that we've overcome  
I was so sure it wasn't for fun  
One word from her, and your back with her charms

Come home, leave it, is not too late  
But no more running in figures of eight  
One word from her and our back in her arms

But is it love? Oh is it love?

One word from her and your back  
One word from her and your back  
One word from her and your back in her arms

But is it love? Oh is it love?
