I stand above you
it's the only way that I can love you
listening to all the noise you make
when will the day come
when I can when I return to where I am from
and I dont have to hear what you say

stand in the world for me now
I don't feel love I dont know how
stand in the world for me now
I don't feel love I dont know how

sorrow has paved the way for the person you are today
but noone else seems to be sorry at all
and the streets are too crowded now
and the static has shown me how
to shut my mind and laugh as they pray

stand in the world for me now
I don't feel love I dont know how
stand in the world for me now
I don't feel love I dont know how

she got me again
she stands at the door
but I won't go in
I won't go in

stand in the world for me now
I don't feel love I dont know how stand in the world for
me now
I don't feel love I dont know how
