These are things I feel
But don't wanna say
In case you feel that way
These are things I know
But don't wanna say
In case you feel that way
I'll wait another day

I can never change
The pain just makes me want to
Stare
At the same things I saw before
Thinking there's something more
God it's a lonely place

I will never know
How you feel about
The things I think about
Will I get a chance to make up to you?
All that I kept from you
You know I wanted to

I can never change

The pain just makes me want to
Stare
At the same things I saw before
Thinking there's something more
God it's a lonely place
Say the same things
You said before
Wanting you even more
God it's a lonely place

I can never change
The pain just makes me want to
Stare
At the same things I saw before
Thinking there's something more
God it's a lonely place
Say the same things
You said before

Wanting you even more
God it's a lonely place
