Brother jukebox, sister wine
Mother freedom, father of time
Since she left me, by myself
You're the only family, I've got left

I go down to that old cafe
Where I try to wash my troubles away
I'm still down and I'm still all alone
But it beats stayin' home all night long

Brother jukebox, sister wine
Mother freedom, father of time
Since she left me, by myself
You're the only family, I've got left

I go home, and I climb that ol' stairway
And I tell myself that tommorow's a new day
But I know, I'll just go out again
And spend my time with my new next of kin

Brother jukebox, sister wine
Mother freedom, father of time
Since she left me, by myself
You're the only family, I've got left

Brother jukebox, sister wine
Mother freedom, father of time
Since she left me, by myself
You're the only family, I've got left
You're the only family, I've got left
