Goodbye Comes Hard For Me
Artist(Band):Kenny Serratt

I just remembered somethin'
That I forgot to do
The bedroom door needs paintin'
And the walls are fadin' too
Angie's bike needs fixin'
It all takes time, you see
And I know I'm not foolin' you
Goodbye comes hard for me.

So I'll just check for things once more
And look in every room
I must have dropped my comb somewhere
And a man must stay well groomed
It seems I have the right to stay
But I know you don't agree
When it's goodbye to all I love
Goodbye comes hard for me

Goodbye comes hard for me
And I'd hoped you'd grab my sleeve
I thought that you might change your mind
And ask me not to leave
My face is wet, I cried I guess
I love you , now your free
When it's goodbye to all I love
Goodbye comes hard for me

--- Instrumental ---

My face is wet, I cried I guess
I love you , now your free
When it's goodbye to all I love
Goodbye comes hard for me...
