How's the world been treatin' you  
Lord, how long has it been  
We got some catchin' up to do  
Good to see you my old friend

Hello honky tonk, long time no see  
I never knew that old jukebox could ever sound so  
sweet  
How I missed your neon lights they sure are a welcome  
sight  
Goodbye lonely nights, hello honky tonk

I'm glad nobody's patched that hole  
Where my head went through the wall  
'Cause I just may head that way again  
Before you reach last call

Don't guess that I was cut out for  
That old domestic life  
When she told me to hit the door  
But I hit yours tonight

Hello honky tonk, long time no see  
Never knew that old jukebox that ever sound so sweet  
How I missed your neon lights they sure are a welcome  
sight  
Goodbye lonely nights, hello honky tonk

Hello honky tonk, long time no see  
Never knew that old jukebox could ever sound so sweet  
How I missed your neon lights they sure are a welcome  
sight  
Goodbye lonely nights, hello honky tonk

Who cares who's right or wrong  
The pain will soon be gone  
Goodbye won't hurt too long  
Hello honky tonk
