Chorus

Youve got to give a little take a little  
Sit a spell, learn to whittle  
Live a little now and then  
Unwind take your time, leave your cares all behind  
And see whats around the bend  
This life aint coming round again  
So give a little, take a little  
Live a little now and then

In a hurry late for work  
Rush and worry but whats it worth  
You might earn a rich mans pay  
But it wont buy you one more day

Repeat Chorus

Busy making you weight in gold  
But you cant take it when you go  
Dont care how high you build your stack  
They dont make a hearse with a luggage rack

Repeat Chorus

This life aint coming round again  
So lean back, chew the fat  
Take a day just to piddle  
Live a little now and then
