Verse 1:

Have you ever thought about what's beyond the here  
and now?  
Have you ever wondered what's behind another door?  
Have you ever wondered when to take the leap and  
have the faith to fly?  
It's time.

Chorus:

You're gonna be all right  
Take all you know and leave it all behind  
You have to lose it all before you find  
More than just an ordinary life  
An ordinary life

Verse 2:

Isn't it a crazy thing, the beauty of an irony,  
Knowing that you have to die to find your destiny?  
Are you really living if you never find what's on the  
other side?  
It's time.

Repeat Chorus

Bridge:

(Go and find your way) Love is calling you  
(Give it all away) There's nothing left to lose  
(Come alive today) Everything is new

You're gonna be all right  
Take all you know and leave it all behind

Repeat Chorus
