Don't you turn off my radio  
Please don't turn off my radio  
Not with the rope still swinging  
While eternity's mouth is singing

So insect I'm in amber  
Days go by please don't forget  
Uneven, so enamored  
Days go by remember that

Gray goes black  
Gray goes black  
Gray goes black

Can't you hear my radio?  
Don't you hear my radio?  
Not with the beast still sleeping  
While eternity's eyes are weeping

So insect I'm in amber  
Days go by please don't forget  
Uneven, so enamored  
Days go by remember that

Gray goes black  
Gray goes black  
Gray goes black

Into the blood we sink and burn  
Gray goes black  
[x8]
