The dark descends through the Promised Land  
Down kingdom come and the acid ban

I'm bad alone, burned inside out  
Nothin' to kill it, I hit the city

In Marianne I dug a hole  
And watched her trip on my heart of stone

And in the end all that crawled, was my skin  
I couldn't kill it, I hit the city  
I hit the city

Ghost arrives at it's bitter end  
To the Promised Land and the dark descends

I'm bad alone, burned inside out  
Nothin' to kill it, I hit the city  
I hit the city  
(I hit the city)  
I I I I hit the city  
(I hit the city)  
One two three four  
(I hit the city)
