Tail lights through silver rain  
Somebody's excited  
To be goin' away  
Spring like December  
On the corner now  
Let the memory fade and I'll forget  
Well I hope she's not alone  
Smiling everywhere she goes  
So sweet  
Then I remember she's a little older now  
I'd let that fade but I don't know how  
And when the sun comes up dead  
You get sick of it  
Makes a howling in your head  
All the time  
Springtime or December  
Can't find cover now  
Children they get excited  
When the sun comes around  
I'm gonna walk in silver rain  
Look for mine the same  
Walk for miles til the memory fades  
And when the sun comes up dead  
Makes it hard when you know  
That it's a story that gets told all the time
