On a dead high wire we'll make a connection
Never knowin' my shepherd never knowin' my witness
Ah c'mon now honey, you're so sick and pretty
C'mon now sugar, 'cause you know it ain't easy

Bang bang bang let me shoot it all over
(Go down people give me your love)
You're another mistake, you're a sign of disaster
(Go down people give me your love)
Gonna shake shake shake as a matter of course
(Going down goin' down people give me your love)
It fights like a bitch and it kicks like a horse
(Goin' down goin' down people give me your love)
Whoo!

Ain't you glad, ain't you glad, ain't you glad little sister?
(Go down people give me your love)
Sideways in reverse I don't know any better
(Go down people give me your love)
You gotta keep it running clean keep on fixing the
machine
Gonna give me your love
(Goin' down goin' down people give me your love)
Keep it running clean keep on fixin the machine
Gonna give me your love
(Goin' down goin' down people give me your love)
Whoo!

Goin' down people give me your love
Goin' down people give me your love
Goin' down goin' down people give me your love

Goin' down goin' down
Goin' down goin' down
Goin' down goin' down
People give me your love
People give me your love
